## **Jump Start Your “Green” Projects with FSC Certified Wood Products**

A great place to start being environmentally responsible is Forest Stewardship Council (FSC) Chain of Custody certified products. FSC Chain of Custody (CoC) certified materials are obtained from well managed forests that have committed to the principles of the Forest Stewardship Council that mandate environmentally appropriate, socially beneficial and economically viable management practices. The efforts of the FSC and the FSC principles are supported by many environmental groups such as Greenpeace, The Rainforest Alliance and the World Wildlife Fund.

The FSC CoC maintains the integrity of all FSC materials from Forest to Final Product. FSC CoC Certified cabinetry and millwork products can contribute towards the LEED® MR 7 credit.

By specifying FSC Cabinetry and Millwork, your project can instantly get a head start on becoming environmentally responsible. FSC CoC materials represent the top tier of environmentally responsible. For instance FSC SkyBlend Products:

- Are FSC CoC Certifiable
- Contain up to 92% pre-consumer recycled wood materials
- Have no added urea formaldehyde
- Meet CARB 1 standards (soon to meet CARB 2 standards)
- Can contribute to various LEED® Credits

Clearly cabinetry made from FSC SkyBlend Products are highly responsible, yet they look, perform and function just like any other typical commercial cabinetry. FSC materials typically do not cost significantly more than their non-FSC counterparts. At no other time has it been so easy and affordable to be environmentally responsible and FSC Certified products can be an integral part in any “green” strategy.

Wend-Wood, Inc. is proud to be FSC CoC Certified (Certification # SCS-COC-002154) and is capable of providing the majority of our products as FSC CoC certified. We would be happy to discuss your project and how FSC certified products can benefit you.

For more information, contact us at (316) 264-1997 or go to our website, [www.wend-wood.com](http://www.wend-wood.com) today.
